Network Rail Safety Bulletin

Prohibition of Genie Z-135 MEWPs

For the attention of; Principal Contractors, Project managers and Site Supervisors.

Following a fatal incident in a plant hire yard adjacent to the M25 motorway, all Genie Z-135 MEWPs are prohibited from hire either directly by Network Rail or by any Principal Contractors or sub-contractors for use on or around Network Rail managed Infrastructure or on Network Rail projects.

This prohibition will remain in place until the root cause of this accident has been released by the investigating technical experts and remedial actions taken and verified by the manufacturer and / or Network Rail, at which time a further bulletin will be released.

Issued by: Jim Allenden, Professional Head of Plant & T+RS james.allenden@networkrail.co.uk
